

Happy Facts 2025

2025 was a great year at Happy Acres Pet Rescue! Here are a few highlights:

- Number of foster animals helped: 27 (18 cats + 9 dogs)
- Average length of stay: 170 days in shelter vs. 110 in foster care (average 56 days if you exclude record-breaker Roy, who was with Happy Acres for 324 days before being adopted)
- Our first adoption event resulted in two adoptions. (Congratulations to Hugh and Yogi, who found their forever families!)
- Thanks to your support, we have now successfully reclassified as a publicly funded 501(c)3.
- Average dollars spent per foster animal: \$80 (food, treats, toys, blankets & beds, cleaning supplies, kennels, etc.)
- We surpassed 1,000 followers on Facebook!

Thanks to all those who support the work we do. We look forward to helping more animals find their forever homes in 2026!
